Cuidado De La Salud Y El VIH: Guia Nutricional Para Profesionales De La Salud Y Pacientes. Health Care and HIV: Nutritional Guide for Providers and Clients

Este reporte de informacion sobre nutricion para que proporcionen un cuidado medico apropiado para las personas que viven con HIV/AIDS. El reporte sirva de un guia nutricional para asistir a profesionales en el cuidado de sus pacientes. Examina y hace una evaluacion sobre la complicaciones nutricionales relacionados al cuidado de salud para pacientes con HIV/AIDS.

This guide for health professionals provides nutritional information on caring for patients with HIV/AIDS. It examines and evaluates nutritional complications that patients with HIV/AIDS face on a daily basis and covers a variety of nutrition topics. It includes questionnaires and handouts for health professionals to use to examine the nutritional status of their HIV/AIDS patients.

Publication Year: 2004

Length: 263 pp.

Identification Number: HAB00341

Health Care and HIV: Nutritional Guide for Providers and Clients

This CD-ROM assists health care providers and people living with HIV in making good nutrition a part of health care. It presents specific ideas regarding the daily issues people with HIV confront in eating. It includes scientific references, and background information on areas of concern in nutrition and HIV.

Publication Year: 2004

Identification Number: HAB00347

HRSA Care ACTION. Buprenorphine: A New Tool in the Arsenal (March 2004)

This newsletter discusses opiate use in the HIV/AIDS environment and the role it plays in HIV transmission. It provides information on how buprenorphine is used to treat opiate addiction in HIV/AIDS patients. It explains how effective buprenorphine has been worldwide in HIV treatment.

Publication Year: 2004

Length: 8 pp.

Identification Number: HAB00343

HRSA Care ACTION. Demystifying Quality: Guiding Principles for CARE Act Programs (December 2003)

This newsletter includes information on Continuous Quality Improvement (CQI) programs for health care professionals that can enhance quality services and health care treatments to better serve their HIV/AIDS patients. It defines CQI, discusses the benefits of implementing CQI's, presents potential challenges, and offers nine steps on developing an effective program. It includes a case study that demonstrates the effectiveness of CQI's.
